Qatari Banking Sector – Overview

Key Features

- Comprised of six local conventional commercial banks, four Islamic institutions, seven branches of foreign banks and one development bank
- “Stable” outlook provided by Moody’s, S&P and Fitch
- Steady growth in assets and lending, fueled by increased economic activity in recent years
- According to the IMF, the local banking sector has good asset quality, is well capitalized and maintained good profitability
- Proactive government assistance further strengthened an already healthy banking sector

QNB – Risk Management

Group Risk Management Committees

Risk Committee	Strategy Committee	Credit Committee	Asset & Liability Committee	Information Technology Committee	Infrastructure Committee	Human Capital
----------------	--------------------	------------------	-----------------------------	----------------------------------	--------------------------	---------------

Credit Risk

- Diversification of investments, capital markets, lending and financing activities – avoid concentration
- Collaterals (cash, treasury bills and bonds, real estate and equity) used where appropriate
- Substantial exposure towards high credit quality issues (approx. 91% of bond portfolio is rated AA or better)
- Credit policy driven by Group Credit Committee which reviews credit applications/limits and approval authority
- Appropriate monitoring of credit risk – robust provisioning policy and recovery processes

Market Risk

- Regular scenario and stress analysis to manage and monitor market risk
- Interest rate risk managed primarily via interest rate swaps while limits on currency exposure are in place
- Daily mark to market and reporting to management – negligible trading or open positions
- Robust risk management system

Liquidity Risk

- Diversification of funding base
- Broad portfolio of high quality liquid assets and readily marketable securities
- Constant monitoring of liquidity position
- Managed centrally by the Group

Operational Risk

- Comprehensive operational risk management policy augmented by sophisticated risk management software
- Key risk indicators monitored and risk/loss database maintained
- Strong IT infrastructure and detailed contingency plans/procedures with two Disaster Recovery sites supporting main data center
- First bank in Qatar with ISO 27001:2005 Standard Disaster Recovery Operations Certification

Other Risks

- Regulatory, legal and reputational risks through compliance and risk frameworks with counsel from legal advisers

Corporate Governance

Enhance Transparency and Public Confidence in QNB and its Practices

Group Audit and Compliance Committee

- Consisting of three Board members with meetings attended by senior management
- Responsible for final approval of financial statements and appointing external auditors
- Internal control, compliance and reporting responsibilities are also part of its mandate

Group Policies, Governance, Development and Remuneration Committee

- Consisting of two Board members and the Group CEO
- Mandate is to develop long-term strategy while monitoring quarterly performance
- Entrusted to develop Group's Corporate Social Responsibility Strategy
- Monitors changes in local and International governance practice to recommend best practice
- Oversees the remuneration policy of the Group

Group Executive Committee

- Consisting of five Board members, with meetings attended by the Group CEO
- Reviews overall credit and investment exposures
- Approves credit facilities and investments above authorized set for management
- Reviews the status of litigation matters and recommend action to be taken on impaired loans
- Oversees and approves Corporate Social responsibility expenditures

QNB – Corporate Strategy

Become a Middle East and Africa Icon

Protect Dominant Position In Qatar

Capitalize on Qatar's strong growth

- Protect dominant position with corporate clients and government agencies
- Maintain QNB's image as leading issuer of structured finance in Qatar
- Protect share in affluent Qatari segment and continue to expand into expat segment
- Build the credit card and merchant acquiring business

Launch New and Develop Ongoing High ROE Businesses

- Launch custody services and grow brokerage business
- Strengthen the private banking value proposition
- Enhance QNB Capital capability

Promote Operational Excellence

- Continued improvement in operational processes through Total Quality initiative
- Migrate lower mass retail customers from branches to e-channels
- Improve asset quality through enhanced risk management and monitoring
- Leverage IT investment across borders through centralized data processing and operations

International Expansion

- Increase share and profitability in key existing markets
- Achieve scale by pursuing acquisitions in priority markets
- Leverage on dominant domestic market position to cross sell outside Qatar
- Focus on markets high growth potential that conform to QNB's risk appetite

Total Assets Overview

Total Assets (US\$ billion)

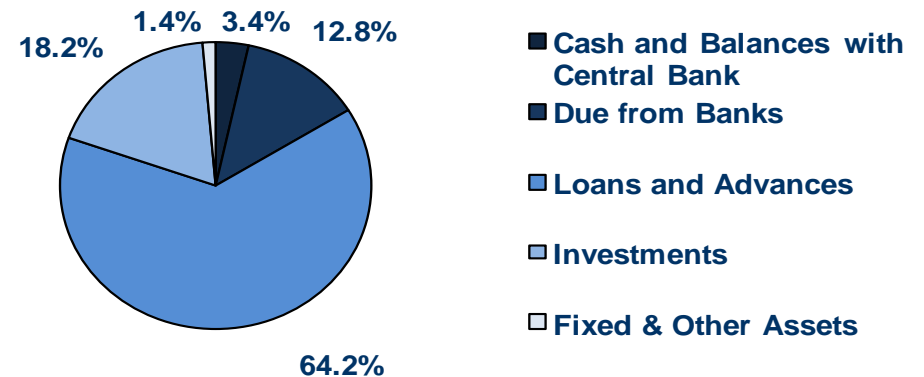

Highlights

- The strong balance sheet growth witnessed by QNB in recent years has sustained with growth of 35.2% from December 2010.
- This growth has been predominantly driven by increased lending with loans and advances representing 64% of total assets.
- QNB's assets are predominantly in Qatari Riyal and US\$ (to which the Qatari Riyal is pegged) also constitutes a material portion of assets.

Breakdown of Assets by Currency

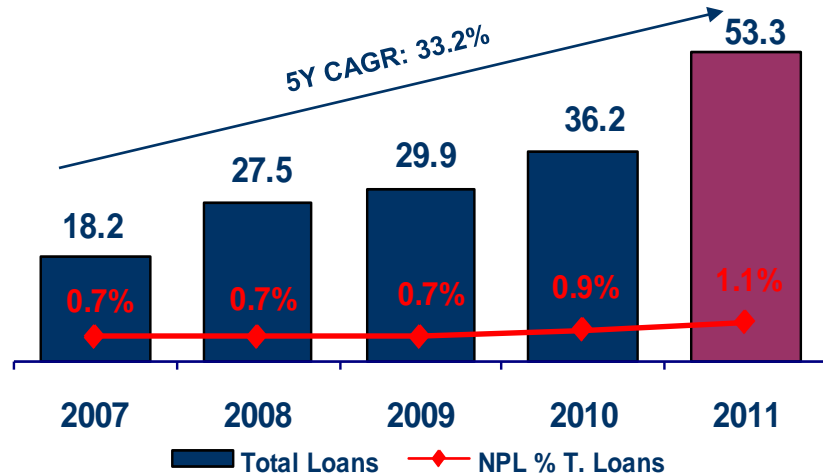

Breakdown of Assets by Type

Loans Profile

Loans and Advances (US\$ billion)

Highlights

- Customer financing has grown substantially in recent years.
- Loans & advances increased to US\$53.3 billion up by 47.2% from December 2010.
- NPL as % of loans and advances stood at only 1.1%.
- The Bank's loan portfolio is relatively well balanced, with a concentration in high quality credit exposures (Government & Government Agencies).
- Being a Qatar focused bank, QNB's loan portfolio is mainly comprised of loans to Qatari entities.

Breakdown of Loans by Geography

Breakdown of Loans by Industry

Asset Quality

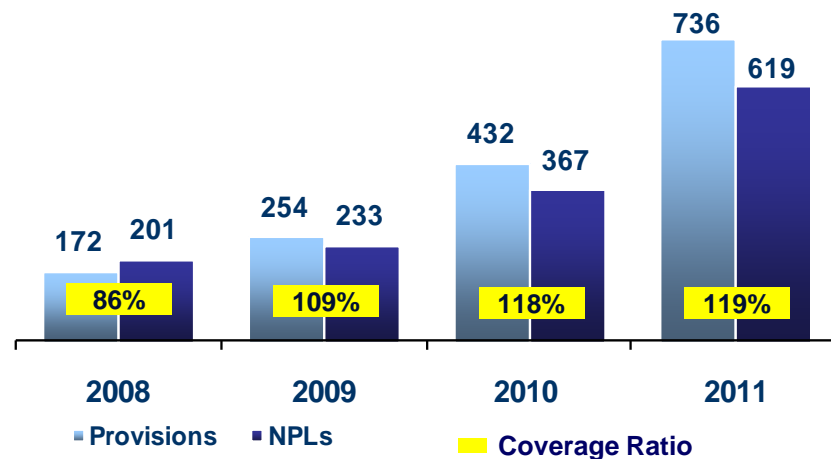

Recoveries / (Provisions) (US\$ million)

Highlights

- Since 2008, in response to the global financial crisis, QNB has increased its provisions.
- QNB reported an NPL ratio of 1.1% as of Dec 2011 – one of the lowest in the MENA region.
- The Bank's provisions coverage has remained strong amidst the economic slowdown, with a coverage of 119% reported in Q4 2011.
- An additional Risk Reserve of US\$27.5m was taken in 2011 to bring total balance to US\$440 million representing nearly 3.25% of private lending against QCB requirement of only 1.50%.

NPL Coverage (US\$ million)

NPLs by Sector (US\$ million)

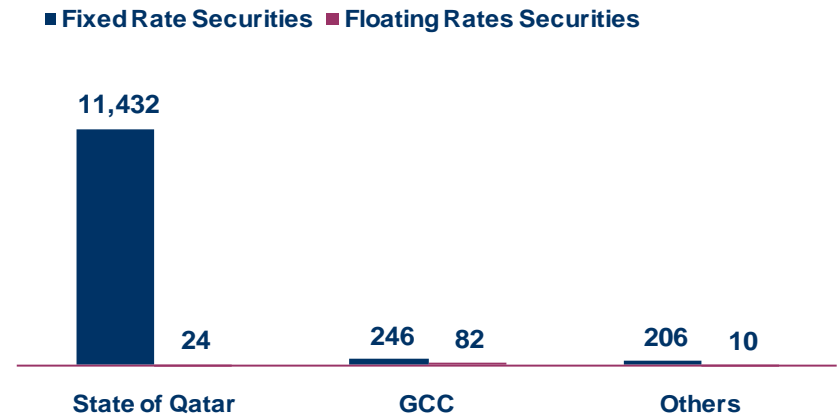

Investment Portfolio Breakdown

Available For Sale Investment Securities (US\$m)

Held to Maturity Financial Investments (US\$m)

Highlights

- As of 31 December 2011, Investments totaled US\$13.8bn (Fixed & Floating rates).
- Most investments are in fixed rate, which hedges the returns in case of interest rate fluctuations.
- As of 31 December 2011, approximately 91% of the debt securities portfolio had a credit rating of AA or higher.

Funding Profile

Customer Deposits (US\$ billion)

Highlights

- Customer deposits and unrestricted investment accounts increased to US\$55.0 billion up by 20.9% from December 2010.
- QNB's funding is predominantly driven by customer deposits.
- Leveraging on the Bank's extensive branch network, QNB has attracted the relevant financing to fund its growing balance sheet.
- In line with its status as the country's leading bank, QNB remains the public sector's preferred bank in terms of deposits.

Breakdown of Deposits by Sector

Funding Split

Liquidity

Loans to Deposit Ratio (%)

Highlights

- QNB's loans to deposit ratio has remained anchored below 100%, providing the Bank with a strong liquidity profile.
- The Bank's deposits are also predominantly in the form of time deposits, providing an added buffer.
- QNB's liquid assets also constitute a substantial portion of the Bank's balance sheet, with the amount of State of Qatar Debt Securities notably increasing since 2008.

Composition of Deposits By Type

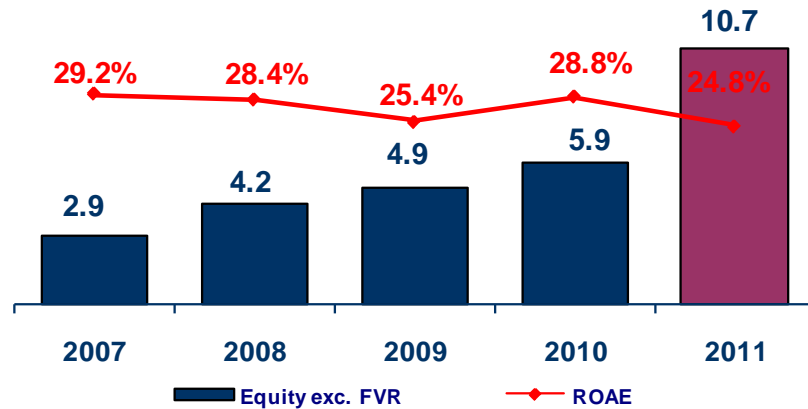

Liquid Assets (US\$ billion)

Strong Capital Growth with Stable Returns

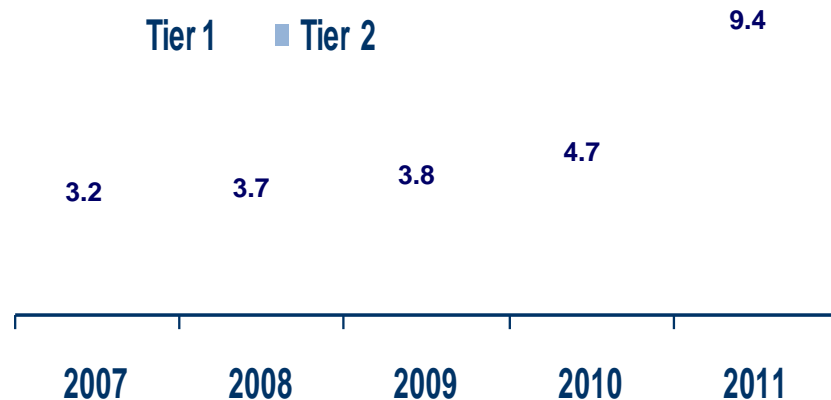

Equity (US\$ billion)

Highlights

- In line with the strong surge in the Bank's balance sheet, QNB has also regularly increased its capital base, most recently in early 2011.
- QNB's capital is in the form of Tier 1 Capital, and the Bank has maintained its CAR above the 10% as required by the Qatar Central Bank.
- QNB continued to enjoy strong ROAE above 24%.

GCC Oil and Gas Wealth (2010)

Qatar Economic Overview

Real GDP Growth (%)

Nominal GDP (US\$ Billion)

Key Highlights

- Real GDP growth is estimated at 21.0% in 2011 driven by large increases in natural gas and condensate production. This also provided a boost to the non-oil and gas sector
- Real GDP growth is expected to remain strong at 10.2% in 2012 as further expansion in the natural gas sector, condensate production, petrochemicals, infrastructure and services all support growth

Nominal GDP Composition (2011)

Source: Source: Qatar Statistics Authority, IMF and QNB analysis

Qatar Economic Overview

Population (000)

Key Highlights

- The total population grew at a CAGR of 17.7% between the censuses in 2004 and 2010, mainly due to expansion of the expatriate labour force
- FDI inflows have remained strong as large projects continue to be implemented
- Qatar has the lowest CDS spreads in the region along with Abu Dhabi

FDI Inflows (US\$ Billion)

5-Yr CDS Spreads

Source: Qatar Statistics Authority ,IMF, Bloomberg and QNB analysis

Qatar Economic Overview

Current Account Surplus (% of GDP)

Key Highlights

- Rising gas production and high prices for hydrocarbons have ensured a large and growing current-account surplus
- Qatar is moving up the hydrocarbons value chain – exports of processed hydrocarbons, petrochemicals and fertilisers grew at a CAGR of 17.5% in 2007-11
- Qatar is diversifying into energy-intensive industries – exports of metals grew at a CAGR of 43.2% in 2007-11
- Exchange Rate: the Riyal is pegged to the US dollar at 3.64 to help stability of inflows from dollar-priced oil and gas

Income from Overseas (US\$ bn)

Key Highlights

- Current-Account surpluses are re-invested in the hydrocarbons sector and to support Qatar's development and infrastructure investments
- Additional surpluses are invested overseas helping the country to diversify its sources of income

Qatar: Trade and Partners

Exports and Imports (US\$ billion)

Key Highlights

- Qatar has consistently recorded a trade surplus owing to strong hydrocarbons exports
- Asia, particularly Japan, has become increasingly important as an export destination
- The EU remains the most important source for Qatar's imports
- The EU area accounts for 14.7% of overall exports and 30% of imports

Top Export Trade Partners (US\$ billion) - 2010

Top Import Trade Partners (US\$ billion) – 2010

Qatar: Key Opportunities

Key Opportunities

- **World's fastest growing economy with a real GDP growth CAGR of 16.2% in 2007-11**
- **Wealthy population with the world's highest GDP per capita in PPP terms**
- **A sustainable economy with at least 100 years of gas production**
- **A visionary leadership with big development plans and global ambition**
- **A proactive government that has a proven commitment to supporting the economy and financial sector**
